

OPTIMALBI PRESENTS CDVDM COURSE

Data Vault Modeling & Certification is an engaging 3 day course, made up of 60% Group exercises and discussion plus 40% tuition. The course uses engaging real world concepts to make sure you're ready to implement and support Data Vault in your environment with a certification to prove it.

DAY 1

-
- Data Vault constructs of Hub, Link and Satellite

 - Impact of Data Vault – the benefits of applying this model

 - Data Vault modeling examples

 - Deep dive into Hub & Link design

 - Advanced Constructs

 - Case Studies: small group modeling labs

DAY 2

-
- Group Case: Integration Case

 - Working with Data Vault

 - Loading Paradigms

 - Applying to EDW

 - Data Vault in Practice

DAY 3

-
- Exam Review and Discussions

 - CDVDM Exam

REMCO BROEKMANS

Remco is a BI & EDW educator, trainer & adviser normally based in the Netherlands. He's making a trip to the land of the long white cloud to bring you the three-day CDVDM course.

Over the three day course Remco will guide you through the Data Vault modeling approach from modeling constructs and patterns to applying data vault principles in your data warehouse environment.

Remco will also cover loading paradigms, architectures, and how to develop an effective overall data vault data warehouse program.
